- Compatible with ADSL and YahClick (satellite)
- Multiple simultaneous calls
- HD (high definition) sound quality available with ADSL connection

Product overview

The Vox Supafone is a multi-functional cordless phone for making calls over the internet. It is compatible with both an ADSL and YahClick satellite internet connection. The Vox Supafone offers unparalleled savings on call costs and is perfect for SMEs, multi-branch businesses and home users. Designed in Germany, the Vox Supafone has been engineered specifically for Vox's first-tier network and delivers superior

sound quality. The Vox Supafone is multi-line so you can register up to 6 handsets, switch between internet (Vox) and fixed line calls at the touch of a button (with an ADSL connection) and make simultaneous calls. The device has a range of up to 50m indoors and up to 300m outdoors. Plus, with its energy-saving ECO DECT technology, calling is better for the environment.

Supafone
